CERTIFICADO

Bilbao (Spain), where we develop our production: machining, assembling, testing and R+D.

Pekos valves, S.A. has been designing and manufacturing ball valves under Pekos® brand name since 1988, catering for a wide range of different industries such as shipbuilding, petrochemical, oil and gas, energy, power plants, chemical...

Our logistics, refined throughout all these years in the market, allows us to supply our products with short delivery times. The fully automatic warehouses in Barcelona and Bilbao reduce the preparation time of our customers' orders and guarantee their accuracy.

> Pekos Valves company philosophy

To bring to the market standard and special execution ball valves with short lead times, at competitive price and most importantly long service life. This is combined with dedicated sale and after-sale service by a truly international team.

> Pekos Valves stocks on line

At www.pekos.es all our distributors can check, on line, stock availability, more than 30.000 valves in different materials and configurations, more than 10 million € stock at your service.

> Approvals, certificates and quality control

All Pekos valves are designed, produced and certified by the most widely accepted international standards. Our total quality control system is designed to assure that every step from material procurement through machining, assembly, testing and packaging meet our main goal - Always exceeding the expectations of our customers.

Pekos is supplying to more than 70 countries around the globe since 1988. This wide acceptance is testimony to the company's ability to understand and efficiently respond to the requirements of current global market.
